

## CASE STUDY

# Kraft Heinz

### CLIENT SITUATION

The Kraft Heinz Company plant in Dover, Delaware produces a variety of powdered products from beloved brands like Kool-Aid and Country Time, but the facility was in need of a sixth chiller to meet its growing demand for chilled water during the production process.

### RHOADS SOLUTION

Rhoads provided a turnkey solution for this project, combining our in-house expertise and project management knowledge to coordinate with a variety of subcontractors. The project entailed the complete removal of interior walls, the rigging and setting of a new chiller unit, the installation of ammonia piping and additional electrical work.

### RESULT

The construction efforts executed by the Rhoads team were skillfully coordinated to avoid disrupting Kraft's existing production processes. The result was a project completed on time and on budget that allowed normal operations at the facility throughout construction.
