

Rhoads Industries Receives Green Rating in General Dynamics Electric Boat Readiness Assessment

Philadelphia, PA, May 2021 – Rhoads Industries has officially received a Green rating for the 2020 assessment period from the U.S. Naval Shipbuilding Enterprise (comprised of Electric Boat and Newport News Shipbuilding). A Green rating from Electric Boat, is the highest possible composite readiness score. It indicates that, as of the assessment date, Rhoads Industries is well-positioned to meet present nuclear shipbuilding material demands as well as support forecasted demand through approximately 2031.

Established in 1899, Electric Boat is the leader in the design, construction, and lifecycle support of submarines for the US Navy. Their assessment states that Rhoads Industries' planning and actions to support the shipbuilding enterprise cannot be understated and are recognized by Electric Boat, its shipbuilding partners, and customers. Rhoads Industries is committed to a continued focus on exceptional operational readiness with program planning, contract performance, proactive risk identification, and subcontract management.

About Rhoads Industries, Inc.

Founded and family-owned since 1896, Rhoads Industries, Inc. (Rhoads) is a strategic partner and total solution provider of industrial fabrication, installation and maintenance services and facilities. We enable our commercial and government customers to achieve superior and resolute business performance by integrating industrial services across maritime, large fabrication, and government, with skilled labor pools, state-of-the-art resources, and a legacy of leadership.
